TRAILER TENTS

The best road to family camping

WHY CHOOSE A CABANON TRAILER TENT ?

Who is **CABANON** ?

Cabanon Trailer Tents are manufactured by CGI Camping which has been producing high-quality tents, trailer tents and folding camper canvasses for more than 40 years and is widely recognised as the best in Europe. This success has been achieved through a policy of innovation combined with a determination to produce only first-class products, using the finest materials, suitably treated to provide the best weather protection, that offer reliability, durability and value-for-money. This philosophy has been maintained in the production of Trailer Tent bodies, which CGI now manufactures in-house at its' purpose built Trailer factory.

CABANON canvasses are the best

A trailer tent is only as good as the canvas that covers it. With Cabanon, only the finest materials from the world's best known manufacturers are used to produce Cabanon canvasses. In addition, CGI employs highly-skilled machinists, who's quality is controlled at every stage of production to ensure that only first-class products leave the factory. A Cabanon canvas is built to last and it won't let you down - especially when the sun isn't shining.

CABANON has a quality Trailer Body

The quality of the trailer tent body is also very important and Cabanon use only high quality materials such as durable, coated steel panels, water and mildew resistant wood, Alko & RTN axles, strong galvanised chassis, stainless steel Suter kitchens and many other fine components to ensure a long and reliable life for your trailer tent.

CABANON Trailer Tents are quick and simple to erect

As you will see from following sequence of pictures, a Cabanon Trailer Tent is quick and simple to erect. One of the key advantages of the Cabanon system is that the beds operate independently of the canvas. This ensures that the beds, and your bedding, can be kept dry should you need to erect or take down the Trailer when it is wet or raining.

Erecting a **CABANON** Trailer Tent is : Simple, Quick & Effortless

The Trailer Tent and Awning can be erected, with practice, in around twenty minutes. All that remains is to peg it down fully and to fit the roof linings and curtains – it couldn't be simpler !

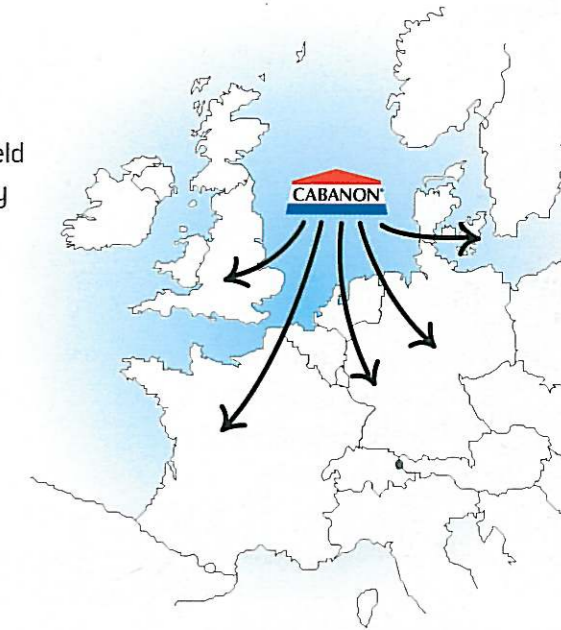

CABANON Trailer Tents are affordable and durable

Whilst there are no compromises made in the quality of materials or manufacture, Cabanon Trailer Tents represent excellent value-for-money with competitive pricing, affordable accessories and higher re-sale values than most other Trailer Tents. In the long-run, Cabanon is more reliable, durable, and represents better value-for-money, than Trailer Tents made from cheaper materials.

CABANON has the best Dealer Network

CABANON trailer tents are sold exclusively through a carefully selected network of Dealers across Europe. Each appointed Dealer is a specialist in the camping field and has been chosen to represent Cabanon because of their expertise and ability to provide excellent advice, support and after-sales-service.

CABANON has a model to suit you

Cabanon has a wide range of Trailer Tents available, from a compact, quick to erect, 2-berth model, which can be used with or without an awning, to one of the largest 8-berth models on the market today which has a 5.4m deep awning complete with kitchen, toilet and wardrobe compartments. We are sure you will find a Cabanon model to suit both your pocket and your camping needs.

A selection of our suppliers :

A compact 2-berth trailer tent, complete with 2.35m awning, that is quick and simple to erect and can be used without pegging – ideal for couples.

The Venus has one generous bed and ample seating space and is ideal for short breaks or weekends as it can be used without pegging. However, should you wish to use the Venus for longer holidays, or just need more space, then the 2.35m deep, two-piece awning, included as standard, can be fitted. The awning can also take a Tall Annexe (with the side awning panel removed) which is great if you need to accommodate a couple of friends, children or grandchildren.

Venus Standard Features include :

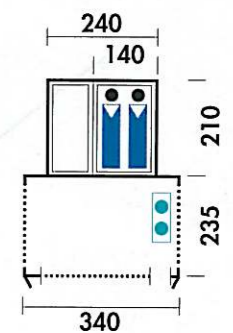

- One 2-berth bedroom (140 x 210cm) with a ventilated front window, with flap, giving a view to the outside, or awning if fitted.
- The standard model is supplied with cabin roof lining, full set of curtains and removable mattress and seat covers. Corner steadies, jockey wheel and spare wheel and carrier are also included as standard.
- A roomy 2.35m awning with zip-out panel - see further details below
- The strong, steel, trailer body, has a seating area and locker storage, built-in drawers and a fully galvanised chassis. Brakes are available as an option.
- The Venus is available either with or without a deluxe kitchen, with two burners, grill, drawers and stainless steel sink.

Shown with standard awning

Venus Standard Awning Features include :

- 2.35m, two-piece awning which has a patterned acrylic roof, curtains and a kitchen area with large ventilated window and outside flap on the right-hand-side. An awning roof lining is available as an option.
- The left-hand-side panel is removable and, once removed, an optional Tall Annexe, and inner if required, can be fitted to the awning.
- The front panel of the awning may be rolled-up.
- The awning is detachable, and enables the sleeping part of the trailer tent to be used on its' own, if required. This is particularly useful for overnight stays.
- The optional "deluxe sun canopy" can be fitted directly onto the cabin or to the front of the awning.

Awning central height : 225cm
Awning side height : 175cm

Optional Accessories :

- Bed skirt
- Awning roof lining
- Deluxe sun canopy
- Tall annexe extension
- Tall annexe inner tent
- Seat back rest
- Tent tidy

Shown with optional Deluxe Sun Canopy and Bed Skirt

Shown with optional Tall Annexe

Saturn

The versatile and striking Cabanon Saturn comes complete with a generous 2.5m awning, with 4 zip-out panels, and features a large living area with curtains.

The Saturns' clever design, and available options, allow this unit to be used in many different ways. The Saturn may be used :

- without the awning for overnight stops ;
- with the awning fitted, with or without the 4 panels removed ;
- with an optional 1.5 m extension, including full kitchen extension, fitted between the cabin and awning.
- with an optional tall annexe fitted to either side of the awning.

Saturn and awning with optional 1.5m extension

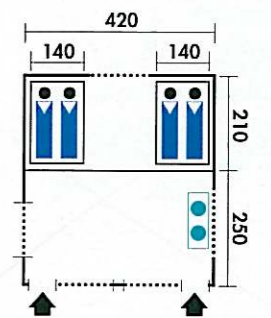

Standard 2.5m awning with 4 zip-out panels removed

SATURN Features Include :

- Two large and comfortable 2-berth bedrooms (140 x 210cm), with ventilated side windows and outside flaps (plastic and cotton). The left-hand bedroom has a ventilated front window, with flap, giving a view into the living area.
- The two front panels of the awning may be zipped out, or zipped down to form a verandah facility (using the optional verandah pole). The two side panels are also removable and, once removed, an optional Tall Annexe or Bedroom Extension, and inner if required, can be fitted to either side of the awning.
- The standard model is supplied with cabin roof lining, full set of curtains and removable mattress and seat covers. A jockey wheel and spare wheel and carrier are also included as standard. An optional awning roof-lining is also available.
- The awning is detachable, and enables the sleeping part of the trailer tent to be used on its' own, if required. This is particularly useful for overnight stays.
- The strong, steel, trailer body, has built-in drawers and locker storage, and a fully galvanised chassis. Brakes are available as an option.
- The optional 1.5 m extension is fitted with a kitchen extension and dividing curtain.
- The optional "sun canopy" can be fitted to the front of the awning.
- The Saturn is available either with or without a deluxe kitchen, with two burners, grill, drawers and stainless steel sink.

Awning central height : 225cm
Awning side height : 170cm

Optional accessories :

- Awning roof lining
- 1.5m extension with push-out kitchen
- 2.5m Sun canopy
- Tall annexe extension
- Tall annexe inner tent
- Bedroom extension
- Bedroom extension inner tent
- Seat back rest
- Co-ordinated free-standing wardrobe
- Under bed tent
- Tent tidy

Stratos

REVOLUTIONARY NEW TRAILER TENT WITH "DOME-SHAPED" AWNING THAT HAS A FULLY ENCLOSED LOUNGE AREA AND ZIPPED-ON GROUND SHEET

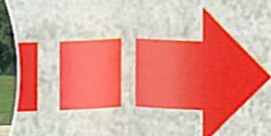

New for 2006

The striking new Cabanon Stratos is a ground-breaking concept in the Trailer Tent market because, in addition to its' unique shape, the awning comes complete with a strong PVC groundsheet which, when pegged and zipped onto the awning around the base, provides a fully enclosed lounge living area completely protected from the elements.

The awning also has a useful fixed front canopy.

Easy and quick to erect...

... in less than 30 minutes !

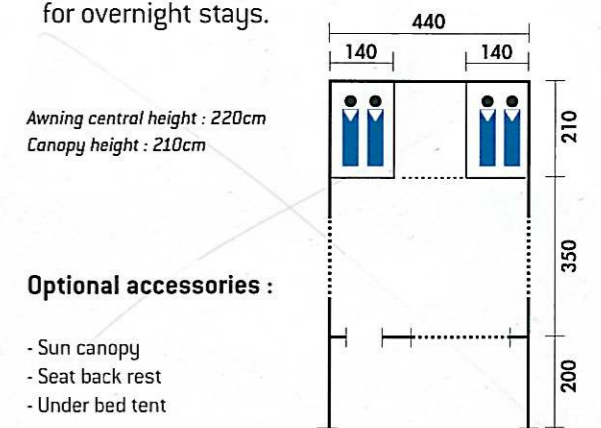

STRATOS Features Include :

- Two large and comfortable 2-berth bedrooms, (140 x 210cm), which provide greater than average headroom, and have ventilated windows and outside flaps to the side and ventilated front windows, with flaps, giving a view into the living area.
- The standard model is supplied with cabin roof lining and curtains and removable mattress and seat covers. A jockey wheel and spare wheel and carrier are also included as standard.
- The strong, steel, trailer body, has built-in drawers and locker storage, and a fully galvanised chassis. Brakes are available as an option.
- The Stratos can be supplied either with or without a deluxe kitchen, with two burners, grill, drawers and stainless steel sink.

STRATOS Standard Awning Features include :

- The enclosed awning lounge area, 3.5m deep, has 3 large ventilated windows, with outside protective flaps, and internally-zipped privacy flaps.
- The awning has a fixed 2.0m sun canopy at the front - to which an optional zip-on sun canopy may also be fitted.
- The tough PVC groundsheet, which is zipped onto the main canvas when erected, is easily removed for routine cleaning.
- The awning front panel can be completely rolled away to provide a large entrance to the awning
- The awning is detachable, and enables the sleeping part of the trailer tent to be used on its' own, if required. This is particularly useful for overnight stays.

Jupiter

The stylish Cabanon Jupiter comes complete with a fixed 1.8m awning, with kitchen extension and a useful wardrobe and toilet compartment, and a detachable 3.6m awning which includes

a 1.8m fixed sun canopy with sides. This larger-than-average awning is 5.4m deep in total.

The Jupiter is flexible in its design and can be used in two different ways :

with the cabin and fixed 1.8m awning (with kitchen, toilet and wardrobe extension) either as a sun canopy or enclosed with the front panel attached

or

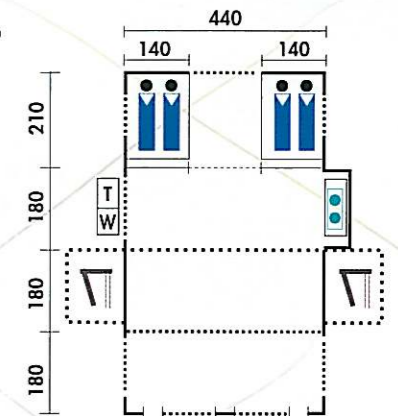

with the detachable 3.6m awning fitted to the above - the movable front panel can then be zipped in at one of three positions - 1.8m from the cabin, 3.6m or at the very front of the awning - creating a huge 5.4m deep awning.

JUPITER Features Include :

- Two large and comfortable 2-berth bedrooms (140 x 210cm), with cabin roof lining with ventilated side windows and outside flaps (plastic and cotton). The left-hand bedroom has a ventilated front window, with flap, giving a view into the living area. The right-hand bedroom wall has a useful, integral, tent tidy facing the living area.
- The fixed 1.8m awning is permanently attached to the cabin canvas and has a living area fitted with a kitchen extension and dividing curtain on the right-hand-side, and a useful toilet and wardrobe extension on the other. The detachable front panel can be fitted at the front of this section. Using the unit in this way is particularly convenient for overnight stays and weekends away
- The detachable 3.6m awning consists of a 1.8m deep living area, with ventilated window on the left-hand-side, and zipped panel, that can be rolled up, on either side, and a 1.8m front sun canopy with fixed side panels, windows and curtains. The removable front panel may be fitted at the centre or front of this detachable awning.
- The standard model is supplied with roof linings, full set of curtains and removable mattress and seat covers. A jockey wheel and spare wheel and carrier are also included as standard. An optional roof lining is also available for the fixed front canopy.
- The strong, steel, trailer body, has built-in drawers and locker storage, and a fully galvanised chassis. Brakes are available as an option.
- The Jupiter is available either with or without a deluxe kitchen, with two burners, grill, drawers and stainless steel sink.

With fixed 1.8m, and detachable 3.6m awning, and front panel in middle position

Awning central height : 225cm
Awning side height : 175cm

Optional accessories :

- Additional Awning Front panel
- Mosquito-net front panel
- Fixed front canopy roof lining
- Seat back rest
- Co-ordinated free-standing wardrobe
- Under bed tent
- Tent tidy
- Side awning frame

With fixed 1.8m awning and front panel

Complete unit with front panel in forward position

Large living area

Helios

Wide-bodied, quick-to-erect, trailer tent, that can be used without pegging.

The Helios is a large trailer tent, with a generous living space and bigger-than-average beds, that is ideal for short breaks or weekends away as the cabin does not require pegging.

The Helios comes complete with a 2.5m deep, five-piece awning, deluxe kitchen unit that can be used inside or outside the trailer, large fridge/storage box, brakes, corner steadies, jockey wheel and spare wheel and carrier as standard.

The Helios has attractive wooden cupboards and drawers, in the large cabin living area, and includes poly-cotton curtains, inner tents, seat and mattress covers.

The Helios is available in 2 colourways :

Blue & beige /

Burgundy & beige.

Helios Standard Features include :

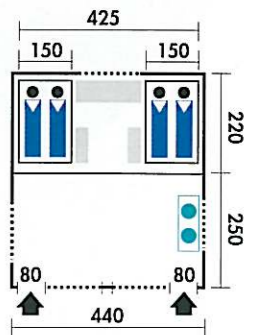

- Two larger-than-average 2-berth bedrooms (150 x 220cm), with ventilation in both. Each bedroom also has a ventilated front window, with flap, giving a view to the outside, or awning if fitted.
- The standard model is supplied with cabin roof lining, curtains and removable mattress and seat covers.
- The deluxe kitchen, included as standard, has double burners, a grill and stainless steel sink, and can be used inside the cabin. As the kitchen unit is fitted with drop leaf legs, it can also be used in the awning, or outside when the weather permits.
- The kitchen unit is stored inside the trailer during transit.
- Inside the trailer are useful cupboards, with additional storage space provided below the cushioned seats and in the drawers on either side of the door entrance.
- The Helios is fitted with auto-reverse brakes, large fridge box, corner steadies, jockey wheel and a spare wheel and carrier as standard.

Helios Standard Awning Features include :

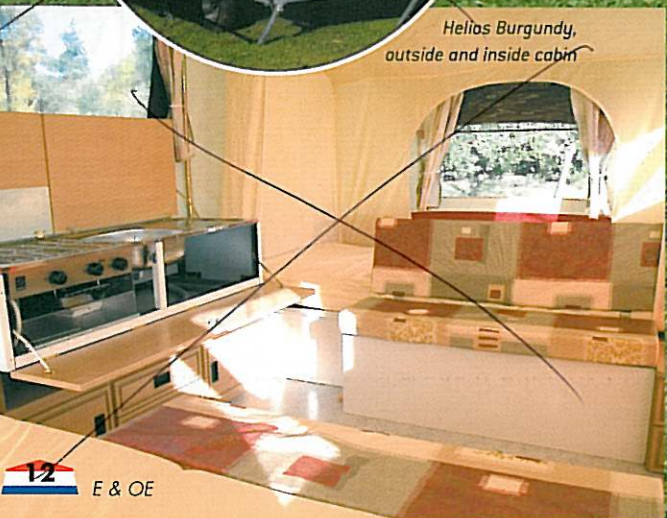

- 2.5m, five-piece, awning which has a patterned acrylic roof, poly-cotton curtains and kitchen area with large ventilated window and outside flap.
- The two front panels of the awning may be zipped out, or zipped down to form a verandah facility (using the optional verandah pole).
- The two side panels are also removable and, once removed, an optional Tall Annexe, and inner if required, can be fitted to either side of the awning.
- An optional 1 m extension is available and can be fitted between the cabin and the 2.5m awning. This extension has a wardrobe compartment.

Optional Accessories :

- Deluxe sun canopy
- Bed Skirts (pair)
- Awning roof lining
- 1m Extension with wardrobe compartment
- Tall annexe extension
- Tall annexe inner tent
- Seat back rest
- Under bed tent
- Tent tidy
