The 2011 Buccaneer range is spectacularly equipped with specification that not only looks superb, but adds another dimension to your touring experience.

Clever details, like a remote control automatic rain sensitive Heki rooflight, that will close automatically at first sign of rain ... even if you are out enjoying a day's sightseeing.

Extremely useful - and totally unique to Buccaneer - is the Alde central heating with telemetric controls as standard. Quite simply, you can programme your Buccaneer's central heating and hot water from your mobile phone for your return from a long walk in the countryside.

And don't forget you can hose down your muddy shoes - and even the dog - with

the external Shower and Rinse® before you settle down in the sumptuous comfort of your 'home from home'.

All these luxuries and many more come as standard with Buccaneer. Experience the Buccaneer difference at specially selected retailers across the UK.
