TOURING INTO THE MILLENNIUM

LUNAR

The translation of the Lunar crest is 'Our product - our pride'... A personal statement made by our founding directors over thirty years ago and still at the core of Lunar's philosophy today. Since that time, Lunar has built a healthy reputation for its lightweight designs and innovation - a reputation further enhanced by the introduction of the superb year 2000 model ranges.

Many new layouts, clever and practical improvements, improved specifications... all these are apparent and the unique lightness of all Lunar products gives them a broad appeal to old and new caravanners alike. No-one else offers caravans which can be towed by small family cars and even our larger models are light enough to be towed by family saloons. Check out the Lunar 2000 range... You will be impressed.

Touring the future...

More caravan, less weight...

As a caravanner you are weight conscious, so you will appreciate the many years of experience and development which give Lunar the edge in saving every last kilogram. Every weight centre is identified, scrutinised and savings made by substituting often much more expensive lightweight materials... Such as the lightweight Obeche hardwood furniture mouldings used instead of the composite materials used by other manufacturers that are as much as 50% heavier.

With an extended 'A' frame design providing even better stability, each chassis is galvanised for maximum durability and is put through the most stringent testing prior to building your caravan. Lunar Caravans offer an exceptional combination of maximum strength and minimum weight.

By utilising materials which are light in weight yet strong in use, and by paying meticulous attention to manufacturing methods, we continue to improve our skills in lightweight construction year on year, without sacrificing either strength or quality.

Setting future standards

At Lunar we are caravanners too, and our own special understanding of your needs has resulted in many practical advantages. In addition to an extensive list of luxurious standard features, including dual stays fitted to the roof lockers and a flame failure device on every gas hob, the Clubman and Delta ranges now have adjustable day beds for extra comfort.

Open one of the roof locker doors - you won't see any bare wood or painted edges. Only clean, smooth and professionally veneered edges... Then there's the pull out chopping board built into many kitchens, the low level courtesy light, the removable doormat and so many more features where Lunar quality shines through...

Relaxation and pleasure

With the high level of standard equipment throughout the different ranges, we are sure there's a caravan to meet your needs...

The large Heki sunroof fitted in many models brings extra light to the living area and assists airflow on those warm summer days. The stereo CD player in Clubman and Delta models creates the right mood for relaxing on the comfortable adjustable day loungers, and the new lighting creates a special ambiance as you settle down for the evening.

Even the lightweight Ariva GTS is fully specified for total comfort, whether towing or parked in your favourite site. At the other end of the spectrum the exceptional new Delta 610-3 is the ultimate in twin axle luxury. Lunar choice is completed with a proliferation of two berth and family models, every one offering the attention to detail and commitment to quality that reflects the fact that, here at Lunar we are large enough to compete at the highest level, yet we are still small enough to care...

The Lunar extended warranty for real peace of mind

All caravans receive a full twelve months warranty from the date of purchase - for no extra charge, but subject to an annual service and inspection, an extended warranty will cover the following major items, but not items subject to ordinary wear and tear.

2nd Year Warranty

Head, Shaft and Damper of the **Coupling**, the entire **Axle** assembly and all aspects of the **Chassis**, including corner steadies.

3rd Year Warranty

Body and Floor, against water ingress and delamination.

Ariva GTS

Ariva GTS Features

Construction

- Galvanised steel chassis
- Fully insulated walls, roof and floor and double glazed windows
- Natural wood framed panel doors

Fixtures & Fittings

- Blinds and flyscreen to all windows and doors
- Window in door
- 12v power point and TV socket
- Battery condition indicator
- 12amp charger / transformer with ELCB
- Pump warning light

Bathroom

- Carver filtered water system
- Fitted cassette toilet
- Large washroom window

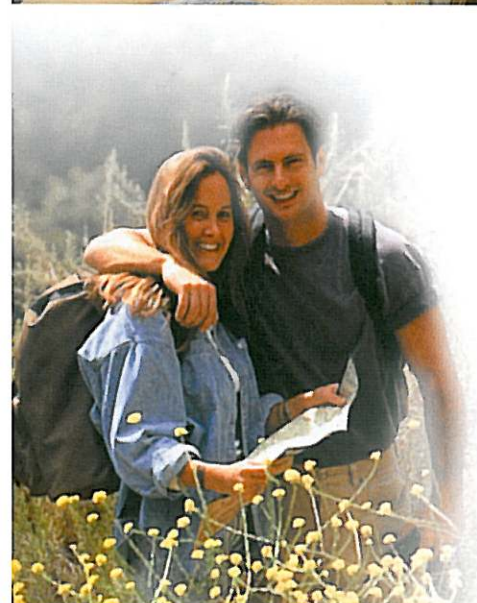

Lounge, Bedroom & Dining Area

- Cocktail cabinet
- Domestic style interior sprung base mattresses
- Roof light with night blind and flyscreen
- Roll out slats for double bed make-up
- Carver flued room heater with electric fanmaster and ducted blown air
- 2 mains and 2 12v reading lights
- 2 flush mounted mains sockets
- 2 drawer chest with pull-out coffee table

Classic touring luxury in true compact style...

Ariva GTS, 2 berth

Narrower and lighter than most caravans, the luxurious Ariva GTS is almost totally unique in its class, offering real caravanning luxury in an easy to handle, lightweight body.

The Ariva GTS' ingenious design with traditional rear-end kitchen layout gives a surprisingly roomy and spacious feel, without compromising either storage facilities or the high specification.

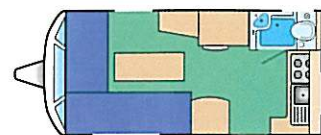

Ideal for year round caravanning, the gas/electric room heater has ducted blown air for all round comfort and the large fridge with its full width freezer is ideal for those little summer indulgences!

LX2000

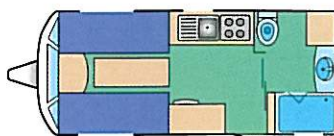

Since its introduction the LX2000 has developed into a truly outstanding caravan offering exceptional value for money. This attractively presented range of two berth and family caravans provides comprehensive levels of equipment that inspire compliments from caravanners, old and new alike.

The specification is all that can be expected from a year round tourer, including mains room heater and mains electric water heater for winter and a large fridge with full width freezer for the summer months.

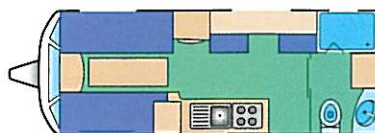

The new Heki sunroof, circular ceiling lights, attractive furniture fabrics and soft furnishings, plus the colour co-ordinated equipment help make the LX2000 as complete a package as you could wish for...

- Slide out work surface in kitchen (not in 420L)

*Built for the
new millennium
with time
honoured skill...*

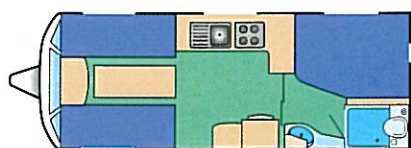

Lexon

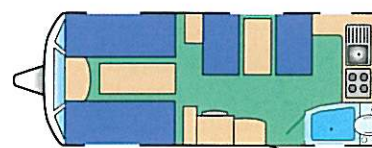

A wider concept in touring offering a unique layout and even more comfort

The introduction of the Lexon heralded a new approach to caravanning. Wider than any other model available, the extra space has enabled us to offer two truly unique layouts, yet the weight remains low (a result of Lunar's long experience in weight saving) allowing the Lexon models to be pulled by the average towing vehicle.

The family Lexon with its end kitchen layout is attractive and practical for both night and day. Whilst the new Lexon EB boasts a fixed double bed and large comfortable lounge with 6' day beds in the living area. The unique Lexon range is a superb example of Lunar design know-how which can be towed by most caravanners and features top specification for maximum touring enjoyment...

Lexon EB, 4 berth

Lexon, 4 berth

Lexon Features

Construction

- Galvanised steel chassis
- Fully insulated walls, roof and floor and double glazed windows
- Natural wood framed panel doors
- ABS capped acrylic rear panel
- Window in stable door

Kitchen

Ultralite

Luxury touring for today's smaller car owner

A ground breaking tourer that brings luxury caravanning once more within the towing capability of today's popular smaller family cars. Lighter than any other caravan being made, the Ultralite combines strength, high specification and classic Lunar styling with incredible lightness, the result of close co-operation between Lunar and our suppliers in saving every last ounce.

The popular layouts have been fully proven over the stringent Leyland test track, despite being over laden by a full 20% over the maximum design weight of each caravan.

Ultralite Features

Lunar Owner's Club

When you choose a Lunar caravan you have the opportunity to join the growing band of enthusiasts who enjoy all the benefits of the Lunar Owner's Club. As a club member you will be sent regular newsletters containing all the latest information on upcoming events, reviews, letters from fellow members and news from Lunar Caravans itself.

You'll be made very welcome at all the numerous rallies which take place across the country by people sharing a common interest in Lunar caravanning. They can also offer you a wealth of knowledge and expertise to help enjoy your future touring even more.

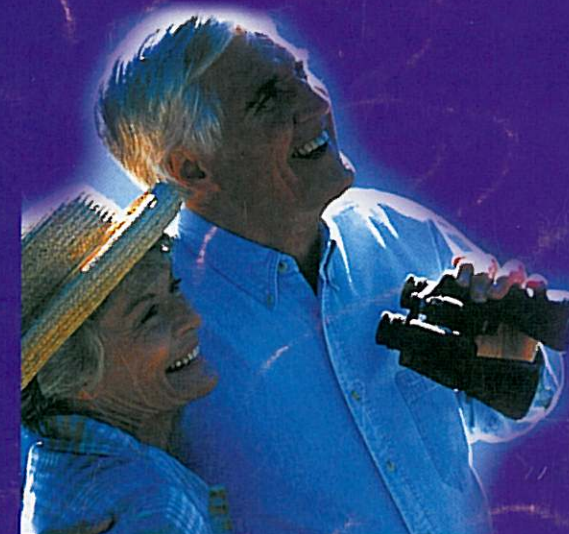

There are a wide variety of activities on offer to Owner's Club members including fruit picking, summer fairs, trips to major caravan and leisure shows, country walks, wine making, photography and a host of other exciting games and competitions for all the family.

Perhaps more importantly however, when you become a Lunar Owner's Club member you join a big happy family made up of new friends just like you who share a real interest in the freedom of luxury, lightweight touring at its very best.

Lunar Caravans are now well into our third decade of quality lightweight touring, the year 2000 heralding the introduction of the most extensive and comprehensive ranges ever.

The now famous Lunar crest carrying the Latin for "Our product - Our pride", sums up a philosophy that has consistently produced award winning, lightweight touring caravans with innovative features that are the envy of our competitors. And our ongoing programme of re-investment in our factory premises, the very latest technology and the new Lunar Caravans range - our best ever - ensures that our reputation for building quality caravans will continue into the future...

Addendum to specifications:

Ariva GTS: Internal body length 11'11"
Overall length 17'5"

Solar Eclipse 462: Mass in running order 815kg
Total user payload 235kg

Clubman 460-EIK: Mass in running order 935kg

Estimated figures quoted for the Delta 610-4,
Clubman 475 CK and 475 NT models are correct.
