Maximum Technically Permissible Laden Mass kgs	1000	1200	1200	1200	1250	1250	1300	1300
Mass in Running Order kgs	793	873	916	907	920	907	966	999
Essential Habitation Equipment kgs	74	74	74	74	66	66	74	66
Users Payload kgs	184	300	257	266	302	315	305	271

A 3% tolerance in the Mass in Running Order has been allowed for in the calculation of payload margins. The Users Payload includes Essential Habitation Equipment, Personal Effects and Optional Equipment.

Note 1: Please take care to ensure that you have allowed for the masses of all items you intend to carry in the caravan.

Note 2: Warning: Under no circumstances must the Technical Permissible Laden Mass of the caravan be exceeded.

From 1st September 1998 new tourers must comply with certain new European Standards which replace existing British Standards. One such Standard covers tourer weights and the definitions used in this brochure are a part of that requirement.

1. Maximum Technically Permissible Laden Mass: The absolute limit to which the tourer can be loaded. Previously Maximum Authorised Weight.

2. Mass in Running Order: The mass of the unladen tourer as supplied from the factory. Previously Ex Works Weight.

3. Users Payload, of which there are three parts:

a. Essential Habitation Equipment; an allowance for operational services e.g. liquid petroleum gas - 90% full bottle, full water heater, 90% full fresh water tank, full cassette toilet flushing tank, mains lead and leisure battery.

b. Personal Effects; allowance for items used by occupants e.g. food, kitchenware,

clothing, bedding and general leisure items. This has been calculated by the formula $10N + 10L + 30$ where N = number of standard and optional berths and L is length of van in metres excluding draw bar.

c. Optional Equipment; an allowance for equipment offered as a retailer fitted upgrade. Please refer to your dealer for details.

How to calculate your Personal Effects Payload:

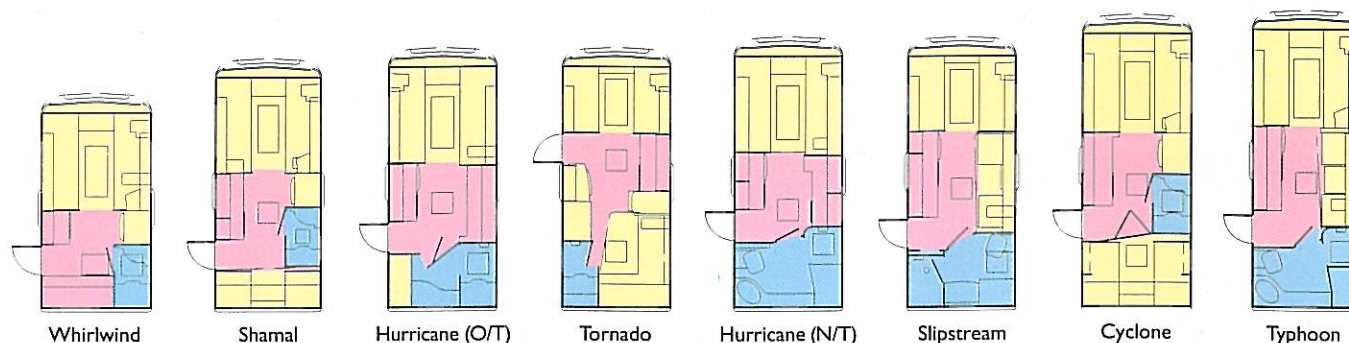

Delete Essential Habitation Equipment from Users Payload, delete the masses of any optional extras you wish fitted, the balance is your Personal Effects Payload allowance.

KEY

- Washroom Area
- Kitchen Area
- Living & Sleeping Area

Optional 'L' shape seating available in Cyclone at the back.

Optional 'L' shape seating available in the front of all models except Tornado and Slipstream.

Maximum Technically Permissible Laden Mass kgs	1200	1300	1400
Mass in Running Order kgs	943	1043	1100
Essential Habitation Equipment kgs	74	66	66
Users Payload kgs	229	225	267

A 3% tolerance in the Mass in Running Order has been allowed for in the calculation of payload margins. The Users Payload includes Essential Habitation Equipment, Personal Effects and Optional Equipment.

Note 1: Please take care to ensure that you have allowed for the masses of all items you intend to carry in the caravan.

Note 2: Warning: Under no circumstances must the Technical Permissible Laden Mass of the caravan be exceeded.

From 1st September 1998 new tourers must comply with certain new European Standards which replace existing British Standards. One such Standard covers tourer weights and the definitions used in this brochure are a part of that requirement.

1. Maximum Technically Permissible Laden Mass: The absolute limit to which the tourer can be loaded. Previously Maximum Authorised Weight.

2. Mass in Running Order: The mass of the unladen tourer as supplied from the factory. Previously Ex Works Weight.

3. Users Payload, of which there are three parts:

a. Essential Habitation Equipment: an allowance for operational services e.g. liquid petroleum gas - 90% full bottle, full water heater, 90% full fresh water tank, full cassette toilet flushing tank, mains lead and leisure battery.

b. Personal Effects: allowance for items used by occupants e.g. food, kitchenware,

clothing, bedding and general leisure items. This has been calculated by the formula $10N + 10L + 30$ where N = number of standard and optional berths and L is length of van in metres excluding draw bar.

c. Optional Equipment: an allowance for equipment offered as a retailer fitted upgrade. Please refer to your dealer for details.

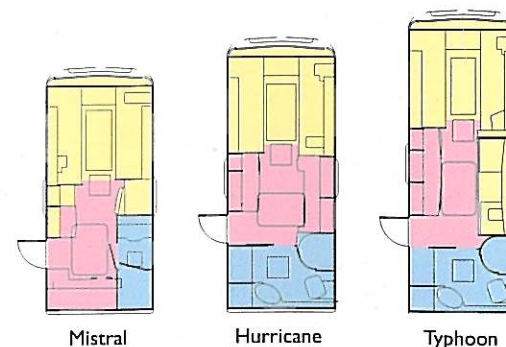

How to calculate your Personal Effects Payload:

Delete Essential Habitation Equipment from Users Payload, delete the masses of any optional extras you wish fitted, the balance is your Personal Effects Payload allowance.

Elddis

THE EXPLORER GROUP

Formed through the merger of six of the most respected names in the industry, The Explorer Group now offers the largest choice of leisure vehicles in the UK. Purchasing your tourer through The Explorer Group brings many benefits.

As a valued customer, you'll receive an Explorer Group Card. This secures you a host of benefits across the country that will make touring an even more enjoyable experience. And soon The Explorer Group Web Site goes on-line. It will provide an invaluable source of information regarding the leisure vehicle market.

The Explorer Group believes that comprehensive and efficient after sales support is vital and to reflect this and the confidence we have in our products, every caravan we sell comes complete with an extended warranty. In addition to the twelve months standard comprehensive manufacturer's warranty, an additional second and third year warranty covers major items externally and internally. This may be extended to five years for an additional premium.

ELDDIS EXTENDED WARRANTY COVER:

- All electrical and mechanical components • Water Ingress • Delamination • Overnight accommodation • Continental use
- Transfer option • Recovery • Green Flag emergency assistance helpline.

And with an established, nationwide network of dealers, we're able to back up our comprehensive warranty plans with unsurpassed levels of service and support.

Just some of the ways The Explorer Group offers you more.

This brochure has been designed to provide you with basic information prior to making a purchase decision. Please refer to your dealer for additional information before you buy. Elddis Caravans (Consett) Ltd. reserve the right to alter technical specifications, prices and model ranges as materials and conditions demand and can accept no responsibility for discrepancies between these and subsequent models. Household items illustrated in the brochure e.g. fruit and personal effects, have been used to enhance photography and are not supplied with the caravan. Limitations in the printing process may mean upholstery colours are not truly represented.

It should be noted that distributors and dealers are not the agents of Elddis Caravans (Consett) Ltd. and are not authorised to bind the company by any specific or implied undertaking or representation.

All 1999 model Elddis touring caravans have been built, inspected and certified to the new European Standards.

Please note: Touring caravans are designated by their model year. The model year runs from 1st September to 31st August. For example, a 1999 model would have been despatched by the manufacturers no earlier than September 1998.

Print date: October 1998.
